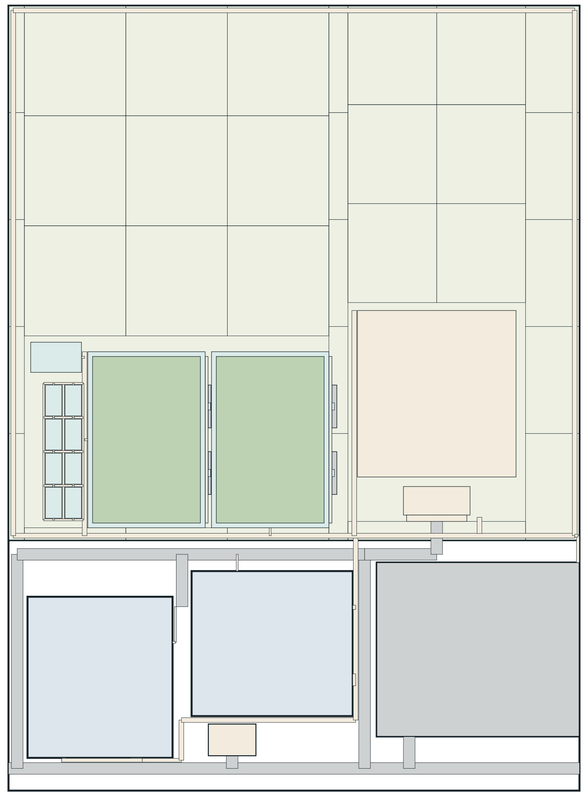
WORLDWIDE STAGES

Two architecture and parking alternatives

G0.00

OPTIONS 02 & 05 | SITE & ARCHITECTURE

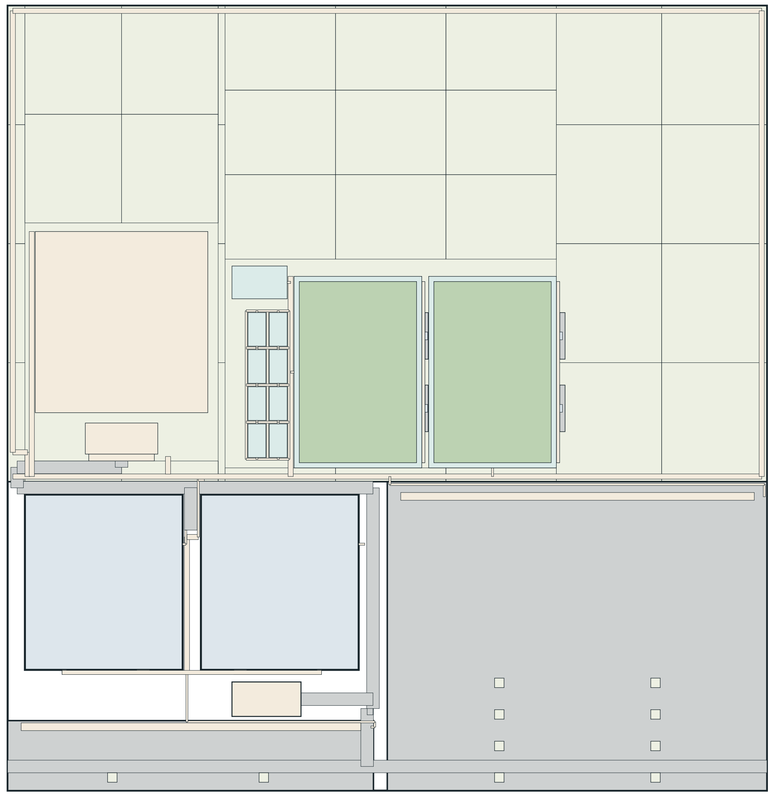
option-02 | Northlight / Timber Cathedral



northlight sawtooth

44.034 acres | 1,500 spaces | garage only

option-05 | Butterfly / Folded Horizons



butterfly

49.470 acres | 1,500 spaces | surface only

SCHEMATIC | NOT ISSUED FOR CONSTRUCTION | 02 OCTOBER 2026

Assumed site and datum. Dimensions govern concept coordination only. Professional design, survey and approvals required.

SAME PROGRAM, TWO DISTINCT BUILDING AND SITE COMPOSITIONS

option-02 | Northlight / Timber Cathedral

Expressed roof structure, warm timber and limestone arrival, sideline spectator courts and a disciplined open-deck garage.

44.034 acres; northlight sawtooth; garage parking.

option-05 | Butterfly / Folded Horizons

Folded roof silhouettes, layered shade and glazed civic entrances beside a compact sports spine and shaded surface parking.

49.470 acres; butterfly; surface parking.

Option02 uses one five-level garage with ramps, stairs and lift provision. Option05 provides1,500 actual stalls in surface lots. Each uses one parking type.

Both retain200,000 SF,24 pickleball courts,2 outdoor soccer pitches,30 outdoor activity acres,250 dining seats and the20 MW target. Sideline bleachers, improved stage and coordinated plant/services replace decorative water and idle features.

These are design comparisons, not cost forecasts. Contractor pricing requires a confirmed survey, budget, engineering, utility allocation and approved occupancies.
